# A LUXURY HOME WITH A REALLY, REALLY BIG YARD

Always a Tiffin topseller, the luxurious Allegro Bus is our most popular model for folks who enjoy the RV lifestyle full time. On the road, this elegant coach is the perfect traveling companion, offering a quiet ride, smart driver-assist features, and a generous towing capacity. Off the beaten path, it becomes a haven of upscale residential living, complete with spacious interiors, high-end amenities, and exquisite design details. Many of these luxuries are Tiffin-built exclusives, including our handcrafted hardwood cabinetry, double-paned insulated windows, and customized PowerGlide chassis.

## MAIN COMPARTMENT

Luxury is the décor of choice in the spacious living area, as seen in the upscale comforts of high-end furniture, LED lighting fixtures, designer fabrics and finishes, and the option of heated floors in the living areas. Entertainment needs are well-addressed, with a surround sound system and four onboard TVs, pre-wired for DISH Network®.

The cool brightness of LED lighting illuminates interiors, using a fraction of the energy of incandescent bulbs to preserve the coach's battery life.

## MASTER SUITE

The luxurious master suite is a haven of comfort and convenience. Tiffin's exclusive double-paned insulated window design ensures peace and quiet, while a bedside control switch for the entry lock offers peace of mind. The on suite residential-style bath is impressively spacious. Many owners opt for our bath-and-a-half floor plan, which offers a midsection lavatory for guests and a private bath for you.

Woodwork is created from solid hardwood by Red Bay master craftsmen. The multitude of cabinets, drawers, and closets adds up to more storage than many larger-sized models.

## TIFFIN POWERGLIDE® CHASSIS

There's an art to engineering a motorhome, as elegantly demonstrated in the custom-built PowerGlide chassis. Reflecting decades of Tiffin innovation, the PowerGlide delivers everything an owner could wish for — durability, reliability, performance, and control.

### MULTIPLEX WIRING

Our multiplexed electrical system with auto reset fuses and relays uses less wiring and increases reliability, efficiency, and flexibility.

### DYNAMOMETER TESTING

Every PowerGlide Chassis undergoes dynamometer testing, which simulates full power road testing. During the process, we assess engine performance, cooling system function, and instrumentation.

### CHASSIS WARRANTY

The PowerGlide Chassis carries a limited warranty backed by Tiffin: Three years or 50,000 miles against defects in materials and workmanship on the PowerGlide Chassis.

### EXTRA STORAGE

As a diesel pusher, the engine is at the rear of the coach. This chassis design opens up room for more under-coach storage and a more spacious driver's cab.

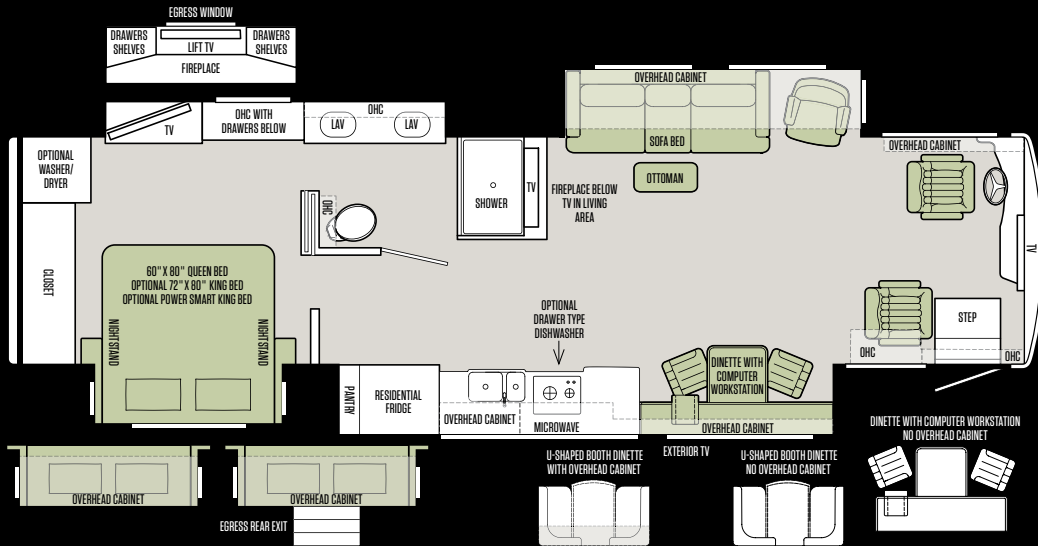

For a complete and up-to-date list of available options and specifications, visit [tiffinmotorhomes.com](http://tiffinmotorhomes.com)

## FLOOR PLANS

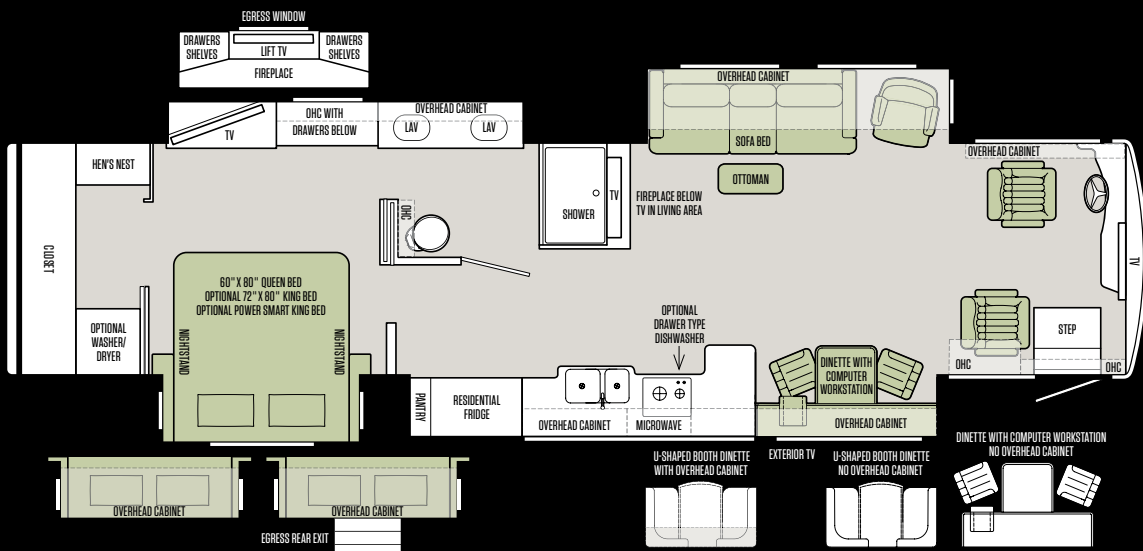

The design of every Tiffin floor plan must meet four essential criteria:  
Maximum space. Optimal organization. Relaxation plus. Elegant atmosphere.  
MORE plans offer your family the most comfortable layout for life on the road.
